PREVENTIVE

Of Typho-Malarial Fever and Cure for Rheumatism at Last Discovered

By the firm of Hughes Bros., manu-By the firm of Hughes Bros., manufacturing chemists of Dallas, Texas. This enterprising firm have for the last five years been engaged in the manufacture of baking powders, wines, cider, vinegar, etc. Dr. F. E. Hughes, who presides over their laboratory, has for the last forty years been engaged in the study and practice of medicine and chemistry. They also have in their laboratory Prof. Geo. C. Calhoun, who has for many years been have in their laboratory Prof. Geo. C. Caihoun, who has for many years been a teacher of chemistry, also Mr. J. Price Warrick, a graduate of chemistry in the University of Philadelphia. These gentlemen in manufacturing the various articles already mentioned, have found it necessary to combat excessive fermentations, whether vinous, acetous or alcoholic, which have ever stood in the way of successfully manufacturing wine, vinegar and alcohol in our Southern climate. The experiments have resulted in the discovery of an agent which completely obvistes ments have resulted in the discovery of an agent which completely obviates this difficulty. This agent is the extract of the bark of a tree indigenous to the state of Texas. Carrying their experiments still further, they have ascertsined that this same extract as completely controls the only remaining fermentation known to the arts and sciences, viz: Blood fermentation, which is the cause of fevers as well as of rheumatism. This agent they have combined with the extracts of ginger and lemon, thereby rendering it a most efficacious as well as delightful and palatable beverage. It is not only one of the best tonics in its effects, but the use of it effectually prevents typho-malarial fever. At the same time it is a sure cure for rheumatism. Dr. Hughes' Extract of Lemon and Ginger is put up in cases of two

COLORADO.

One Hundred Thousand Pounds of Wool Coming in Daily. Special.

COLORADO, TEX., May 24.-Wool is now coming in at the rate of 100,000 pounds per day.

Two New York and Boston wool buyers are in the city, who will remain until the wool season is over. The round-ups are in full blast now.

The calf crop is very good, considering the hard winter we passed through. It is rumored on the streets that the Baylor college will be moved here. A liberal bonus will be offered. This is acknowledged to be the healthlest part of the state.

There is a move on foot to establish a convent and Catholic college here. Our military company is growing fast in numbers.

Mr. Abram Nave of the Nave & Mc-Cord cattle company is in town. J. D. Mitchell of Fort Worth is here. The Rendrebrook hotel has changed hands, Mrs. Wm. Dunn has taken

charge again. There is a good deal of cattle-trading

going on here.

Mayor William Martin has just returned from Anson.

The sales of wool yesterday amount-

ed to 30,000 pounds.

Mr. Frank Young of St. Louis has opened up a hardware store on Oak Everything is on a rush here: streets

are lined with wagons and buggles from early morn till late at night. Capitalists are coming in on every

train.

The grand jury is in session and making it hot for evil-doers.

Matrimonial Infelicity.

The Sharpe family had a rough time of it. Mrs. Sharpe applied for a divorce from Mr. Sharpe applied for a divorce from Mrs. Sharpe. Neither of the applications was granted. Thereupon the Sharpes separated, and began to quarrel for the custody of the children. The whole infellcitous business was caused by indigestion, which had soured the tempers of the beiligerent parties. Brown's Iron Bitters tones up the digestive organs and enables people to cat joyfully and be happy. It is not a costly experiment to see what a dollar bottle of this medicine will do to promote family harmony. lly harmony.

Coolers and Refrigerators.

Many ignorant people refuse to permit the ivy and woodbine to clamber over brick buildings, in the belief that its presence renders the walls damp and creates unhealthfulness. The opposite is true. These vines absorb all moisture there is in the bricks and mortar, and the pressure of the foliage acts as a shield, turning severe driving rains away from the walls. The vines derive most of their sustenance from the ground and do not give out moisture from the rootlets that cling to the wall.

There is now living in Pickens county, Ga., a mar who during the rebellion donned his wife's dress, kept his face closely shaved and wore a big sun bonnet, in order to avoid being con-scripted and sent to the front. The officers in search of recruits frequently officers in search of recruits frequently visited the house and asked his wife where her husband was, and at that very moment he could be seen working in the field in female garb. By the time he had worn out seven of his wife's dresses he became tired of masquerading, enlisted and became a good soldier.

Manager. An unusually heavy passenger traffic from Canada to the New England states has set in, and many of the travelers are said to be young, able-bodied French Canadians. In speaking of the great increase in the number of trav-elers from Canada, the Boston Record says: "Many of them, to be sure, have been in the habit of coming to the states for summer work, but since the hard times set in there has been no such influx as the present. There is nothing in the industrial situation in New England to attract them, and if the hegira continues the labor problem will be further complicated. The railroads, however, are receiving a good benefit."

A society of young women for the suppression of slang has been formed in Cleveland, Ohio. For every violation of the rules a fine is imposed, which is paid over at the end of each quarter to the associated charities. There are, however, many words and phrases that, while they might be classified as slang, are expressive, and by long usage have become part and parcel of the English language. We can scarcely afford to part with these.

The house or sobbling wren, is a bird peculiar to Southwestern Texas. Its melancholy note is described as very impressive. It begins in a high, clear key, like the tinkling of silver bells, and, descending gradually from one chime to another, it suddenly faiters, breaks off and sobs like a child, the song dying away in a gasp. The song is heard only in the opening light of dawn and is repeated but a few times. The singer is rarely seen during the

The salmon run in the Sacramento The salmon run in the Sacramento river is loss at this time than was ever known at the same season in any previous year. Two of the river canneries have already ceased doing business, at least temporarily. During the day the water is said to be too clear, and at night the seals are so plentiful that it is impossible to get any fish. Every boat carries one or two rifles at the prevent time, and the fishermen endeavor to rid the bay of the trouble some seals and sea lions.
